LICENSES FOR SALOONS.

A New Set of Regulations Adopted by the Commissioners.

MATTERS THAT WILL BE CONSIDERED IN ACTING UPON APPLICATIONS—THE OBJECTIONS OF CITI-ZENS-SALOONS IN RESIDENCE SECTIONS-PER-SONS WHO NEED NOT APPLY.

The District Commissioners have adopted new regulations governing applications for and the issuing of liquor licenses, as follows:

First. Every person intending to apply for license must pay to the assessor the fee required for such license and file with that officer at least ten days before the first day of November of each year a petition setting forth the name and residence of the applicant, the place where such license is desired, the name of the owner of the premises; that the place to be licensed is necessary for the accommodation of the public; that the applicant is the only person pecuniarily interested in the business asked to be licensed, and whether business asked to be licensed, and whether the applicant has had a license during the pre-ceding license year, or any part of it, which for any cause has been suspended or revoked; that neither the applicant, nor any person for him, has given or promised to any of the signers of the written permission required by the third paragraph hereof any reward or compensation of any kind or value for such signature, and that the applicant is now and intends to be for the next year an actual resident of the District of Columbia. This petition shall be subscribed and sworn to by the petitioner. Second. That the approval of applications for license for the sale of spirituous liquors must precede the opening of places where such liquors are sold.

Third. That with every application for license there must be presented the written permission of the majority of the owners of real estate and the majority of the residents keeping house on the side of the square where it is desired to locate such business, and on the side of the square opposite the same, and if a corner house such signers will be required in all cases on both streets. (The term "residents keeping house" does not include boarders, persons renting rooms or tenants of flats). All signers to such applications must be made in ink, and agents signing must name their principals. The fact of such ownership of real estate and of the required residence shall be certified by the assessor of the District of Columbia, and the genuineness of the signatures of both property owners and residents shall be ascersed and certified by the lieutenant of the police precinct which embraces such proposed

PERSONS WHO NEED NOT APPLY. Fourth. That licenses will not be granted to

the following classes of persons or places: a. Any person, building or place within four hundred feet of a public school house owned or occupied by the District of Columbia, measured from the principal entrance of each by the ordinary course of travel between such place and such school house. b. To any person convicted, or pending

prosecution in court, for selling or giving liquor during the preceding license year to a soldier or volunteer, to a minor, to any confirmed drunkard, or to any intoxicated person, or to any premises where gambling has been allowed, or which are or have been used as a bawdy house during said year.

c. To any person convicted or pending prosecution for violation of the liquor-license law or regulations during the preceding license year, with selling liquor on Sunday or after midnight and prior to 4 o'clock a.m., or with selling liquor without license, and the application of no such person will be cons

d. To any person keeping a place where idle. noisy, disorderly or suspicious characters con-gregate; to a woman; to any person who had not a retail license the preceding year, until the number on any space between any two streets shall be reduced to one, excepting on business streets or avenues. Business streets, for the purpose of this regulation, shall be held to be streets or avenues or portions of streets or avenues between two streets crossing the same which are principally occupied for pur-

poses of business.
e. To all grocery and provision stores, and in all such cases the fact that such store is not completely separated from the place where liquor is sold and entered by a separate and distinct entrance will be sufficient ground for the denial of the license.

f. In all cases of application for wholesale icenses it must be shown satisfactorily that the places where it is intended to carry on such business are properly arranged for the sale of spirituous liquors as merchandise, and that the party making application has not and does not intend to sell liquors to be drunk upon the premises. A conviction of a wholesale dealer for selling intoxicating liquors to be drunk on the premises will be sufficient cause for revoking the license.

EXAMING PREMISES.

g. All applicants for license shall allow the duly authorized agents or officers of the Commissioners full opportunity to examine the premises for which a license is asked. A refusul to do so shall be deemed a sufficient cause to reject the application or to annul the license if already granted, and all licensees are required to frame their license and place the same in his or her chief place of business so that it shall be conspicuous and easily read, and neglect of this requirement will be sufficient cause to annul said license.

h. When an application for a liquor license has been rejected by the Commissioners the same will not be reconsidered upon the same

showing nor upon purely cumulative evidence. To obtain such reconsideration a written motion must be filed with the secretary of the board of Commissioners, clearly setting forth the new and independent facts or reasons upon which a review is asked (with all the evidence in support thereof), and if such license is again rejected upon such rehearing the applicant will be required, if he desires a still further hearing, to file a new application.

Fifth. License will not be granted where it shall appear to the Commissioners that the place applied for is in a neighborhood occupied largely by private residences and the entrance to which is within 50 feet of the entrance to a private residence the owner or lessee of which shall file with the Commissioners a protest against such heense, or where there are, in the opinion of the Commissioners, more such places than the accommodation of the public warrants, and the Commissioners reserve the right to limit the number of saloons in any lo-

Sixth. License will not be granted to any person employed in any capacity under the Distriet government or to any person who, by reason of any other employment or business, will be absent from the licensed place during business hours, or to any person not an actual resi-dent of the District of Columbia.

OBJECTIONS BY CITIZENS. Seventh. The Commissioners will consider any valid objections made by citizens to any application, provided such objections are specific in their character; that is, against a particular applicant and bear the signatures of

the parties making the same.

Eighth. Licenses to sell intoxicating liquors by retail in that portion of the District of Columbia outside of the cities of Washington and Georgetown will not be granted to any person whose place of business is within one thousand feet of another place licensed for the same business, excepting in cases where four-fifths of the heads of families residing in said portion of said District within one mile of the premises for which such license is asked shall petition

Ninth. It is understood and agreed that the foregoing regulations are to be regarded as controlling any license granted by the Commissioners, and as much a part of the conditions governing said license as if incorporated into and made a part thereof.

therefor.

No one of the above regulations will be waived on behalf of any applicant for a license excepting by unanimous consent of the board

THE W. L. I. CORPS' BIRTHDAY. A Notable Anniversary Celebration To- The Political Outlook in Town and

The postponed parade of the Washington Light Infantry corps, to commemorate the fiftythird anniversary of its organization, is down on the program for this afternoon at 5 o'clock, if there is no rain. The demoralized condition of the avenue will cause changes in the ordi-Pennsylvania avenue to 3d street, to Massachusetts avenue, to Mount Vernon Place, to K street, to 19th street, to Pennsylvania avenue, to Executive avenue, to the armory. With dry weather a large turn out of the white-coated boys is looked for.

The corps was organized on September 12. 836, and has always been a favorite among the local military. It has many things in its his-tory to be proud of, but the brightest page in its history is the fact that it promptly tendered its services to the government when the war broke out in 1861. Col. W. G. Moore, its present commander, has held that honorable position for eighteen consecutive years, and shortly after the organization of the District national guard he became the colonel of the first regiment, of which the infantry is the first battal ion. Should the weather interfere there will be no further effort to parade, but the ceremony of presenting a number of veteran members with service-badges will take place in the armery shortly after 5 p.m.

Fire Last Night. About 8:45 o'clock last evening a fire took place at house No. 819 F street southwest, occupied by John Sorrell, William Williams, Mrs. Riley and John Hillary. The fire originated in the third story from some unknown cause. Detectives Horne and Mahon were in the neighborhood at the time and, going to the place at once, went up stairs to find some children supposed to be in an upper room. They found Mr. John Hillary asleep. They aroused him and he at once ran into the street without waiting to put on his clothes. The fire department responded promptly to the alarm and soon extinguished the flames. The loss on the building, owned by Wm. Frazier, is \$300. The missing children were found at a neighbor's. Window-glass Makers Combine.

The window-glass manufacturers outside of the Chambers-McKee combination at Jeannette, Pa., have in contemplation the formation of a gigantic company with a paid-up capital of \$2,000.000. It is proposed to build a wo-tank window glass factory, similar to the Jeannette concern, in one of the new gas fields adjacent to Pittsburg. This will place them on the same footing with the Chambers-McKee company, which is now running inde-

pendently of the manufacturers' association.

Eva Hamilton Too Ill to Go to Court. At May's Landing, N. J., yesterday court opened promptly at 10 o'clock. All the prisoners indicted, with the single exception of Mrs. Hamilton, were brought into court and plead "guilty" or "not guilty" to the charges presiding judge and prosecutor of the pleas to enter a plea of "not guilty" on behalf of his client, the reason assigned by him being the continued illness of Mrs. Hamilton, who is still confined to her bed with a severe attack of nervous prostration. Her physicians deemed it injudicious to have her brought into court yesterday, because of the trying ordeal to which she will be subjected at the trial today. Mr. Hamilton remained at a hotel there Monday night, but did not enter the court

Gov. Fowle Discountenances Lynching. Gov. D. G. Fowle of North Carolina, in view of the lynching at Morganton last week, has issued a proclamation reciting the facts as ascertained, and enjoining "all officers, and especially those charged with the administration and execution of the law in localities where the crimes have been committed, to energetically exert themselves to arrest and bring to justice these offenders against society. The laws must and shall be maintained. The executive is ready to exercise all the powers conferred on him to preserve the peace of society and protect the good name of the people of the state. While it is cause for profound sorrow that these evils should exist there is consolation that they are confined to few and restricted localities. The great body of the people are sober, industrious and law abiding, and have ever been distinguished among the states of the Union for reverence of the law and steady support of its ministers. To this people I appeal to aid me," and in conclusion ne "invokes a sound public sentiment."

Good for Evil.

Gen. Boulanger's wife leads a most retired existence at Versailles with her eldest daughter, Mile, Helene, absorbing herself in religious and charitable work. She never looks at a newspaper, and will not allow the general's name to be mentioned before her if she can possibly help it. But she could not avoid hearing the verdict of the high court, and then declared: "I refused to be divorced from my husband in order that I might preserve a home for him in his old age. I still intend to pursue the same course, as it is not my

Woman Suffrage in Wyoming.

Mr. Campbeil's proposition in the Wyoming onstitutional convention yesterday to submit the question of woman suffrage to the people caused a lively debate, during which Mr. Campbell called another delegate a liar. Both are democrats. The universal suffrage plank will, it is thought, go into the constitution.

The Kemmler Habeas Corpus Case. At Auburn, N.Y., the hearing on the testimony taken by the referee in the Kemmler habeas corpus case was begun on its merits before Judge Daly yesterday. Bourke Cockran made an argument against the constitutionality of the law for electrical execution, taking the ground that the testimony showed such execution to be uncertain, cruel and innuman. The attorney general appeared for the state.

FREDERICK NOTES.

FREDERICK, MD., September 17.

County. dence of THE EVENING STAR

The approach of the nominating conventions of the republican and democratic parties in this county sees a largely-increased interest manifested in the subject of politics, and the nary parade formation, but the route is down | candidates in both parties are making an active who have recently announced themselves as aspirants for the various positions is Mr. J. Roger McSherry, an active young democrat and a son of Chief Judge James McSherry. His aim is for the house of delegates. Mr. H. F. Steiner, one of the republican aspirants for the shrievalty, seems so far to be in the lead. The democrats are not making their fight openly, but it is known that they are unusually anxious to carry the county, and especially to elect a majority in the board of county commissioners. It is not thought that any of the republican incumbents in this body will be renominated, but that new men will be chosen. The republicans held their primary meetings throughout the county on Saturday and selected delegates to attend the county convention here next Saturday. They also selected members of a new county central committee. Interest now attaches as to who shall be its chairman. Mr.

Wm. M. Hardt is the incumbent. The September term of the circuit court for Frederick county convened yesterday and promises to be a long and interesting session. Chief Judge McSherry, in concluding his charge to the grand jury, made the interesting statement that the legislature will at an early date, in deference to urgent solicitations, which are likely to be strenuously pressed, enact such a high-license system, guarded by restrictive provisions and fortified by heavy penalties, as will effectually crush and stamp out the practice of selling liquor to minors.

KENTUCKY COLONELS. How it Happens that They are so

Numerous in the Blue Grass State.

It is somewhat hard for an outside barbarian to understand why "colonels" are so plentiful of the history and development of the human preferred. Capt. Perry, Mrs. Hamilton's in Kentucky. In the first place Kentucky furcounsel, asked and obtained the consent of the nished a great many soldiers, both to the northnished a great many soldiers, both to the northern and to the southern armies, during the war and naturally some of these soldiers are sure- the people have lived in all ages, from the enough colonels by rank and service. Others, courtesy. Then we have a very few colonels who hold over from the Mexican war, and there are other colonels of militia, like the Louisville Legion, who come by their titles honestly. The governor of Kentucky has the privilege of appointing persons on his staff with the rank of colonel. These colonels are expected to look pretty and martial at the governor's ball and to ride horseback when the governor heads a procession. The last duty frequently gives them valued at from \$250,000 to \$300,000, to Yale | great pain and anxiety. There are scores and scores of these governor-staff colonels in this proud old commonwealth.

Some executives have been more lavish than others in the distribution of these gilded honors. That kindly old gentleman, Gov. Luke Blackburn, M.D., was fond of creating colonels. During his term he made some colonels in the city of Louisville alone, if I remember the figures correctly. There are various reasons which entitles a man to this guber-natorial compliment. Col. Will Hays is a colonel because he is such a gifted poet, while Col. Albert Dietzman was given his title by Gov. Knott because he was the greatest business manager on earth.

I trust these facts will make it somewhat clearer to the wondering northerner why col-onels are so plentiful in Kentucky. But there are other reasons. Many prominent citizens simply as a recognition of their merit by the community. Thus every man who conducts a large distillery is ipso facto a colonel; for in-stance, Col. John M. Atherton, or Col. Tom Sherley. Every prominent railroad official is also a colonel; for instance, Col. Milton H. Smith. Every Congressman is a colonel, as Col. Asher G. Caruth. Every man with a government office is a colonel; as Col. George Du Relie. Every great editor is a colonel, like Col. Henry Watterson. The chief of the police department is a de facto colonel, as Col. Wood. Then there are other gentlemen who are colonels because no other title fits them. But the law on the subject is a little vague and has never been formulated by the legislature. If a man has been a captain in the war never call him captain; call him colonel. He is entitled to this promotion twenty-four years after the war closed. The only men proud to be called captain are the commanders of steam-boats, the captains of fire companies, the con-

a distinction than colonel. Only prominent people who have seen actual service wear the title; for instance, Major Ed. Hughes and Major J. Washington Wann. But still if you call a major a colonel he is not likely to get mad at you. By the observance of these few rules I have jotted down the stranger can get along in Kentucky without committing any serious

breach of etiquette. Gen. Mahoue's Program.

Gen. Mahone will leave Petersburg Saturday next for Abingdon, where he will deliver his initial speech in the campaign on Monday. He will make a number of speeches in that sixty miles north of Montgomery. Ala., over a section of the state, remaining in the southwest until the middle of October. After that out of the discovery of an incendiary letter he will visit Southampton and other counties east and south of Petersburg, his schedule of appointments closing up his speech making November 1 at Richmond.

Following is a copy of a circular letter sent out by Gen. Mahone to all parts of the state: "Please send me the names of the pastors of the different churches of your county, their post office addresses, and state whether white or

GEN. GRUBB NOMINATED. The Republican Candidate for Governor of New Jersey.

After the report had closed in THE STAR yesterday the New Jersey republican convention at Trenton nominated Gen. E. Burd Grubb for governor on the second ballot. Gep. Grubb was sent for and made a brief address, which was received with great enthusiasm. Congressman Kean, who was Gen. Grubb's princanvass among their friends. Among those cipal competitor for the nomination, also spoke and pledged his earnest efforts to elect the nominee.

The platform adopted indorses the principles enunciated by the last republican national convention and commends President Harrison's administration; pledges support to local selfgovernment and opposition to special laws; denounces the last legislature; calls for the enforcement of the compulsory educational laws, and presents the following as the party's sentiment on the liquor question:

"We resent the intrusion of the liquor power

as an organized force into the politics of the state. The attitude of the two parties on these two questions is so clearly marked that no intelligent voter can be deceived by any omission of either to make a declaration on this subject. We heartily commend and un-qualifiedly indorse the action of the republican minority in the legislature of 1889 upon all questions of morality and state and party policy.'

Essex county, through its chairman, arose to say that Essex, in voting for these resolutions, did not commit itself to any special character or legislation on the liquor question. SKETCH OF THE CANDIDATE.

General Grubb was born in Burlington, N. J., November 13, 1841. He received his preliminary education in the grammar schools of his native city, and matriculated in college, from which he graduated with honor in 1860. He entered the service as second lieutenant of company C, third regiment, New Jersey volunteers, in June, 1861, and in the following July participated in the battle of Bull Run. He did valiant service throughout the war and was made brevet brigadier-general of volunteers for meritorious service before Petersburg in 1864. He is very wealthy and resides in an elegant mansion at Edgewater Park. His business interests are largely in Philadelphia.

Nathaniel Page of Washington, who is just back from Europe, where his business as an international lawyer takes him frequently, told me tonight that he regarded the Paris exposition as the greatest educator of the age. Their total expense was about \$11,000,000. Labor is very cheap in France. Materials are also cheap, and the mere duplication of the Paris enterprise would cost in this country at least \$20,000,000. What we can do here will depend somewhat upon Congress. The progress we have made in 400 years presents a theme for illustration by exhibits that can be made unique and wonderful."
I asked Mr. Page about Ministers Lincoln and

Reid at London and Paris, and had just been told that both are popular, and that Mr. Reid is entertaining in a splendid manner at Paris, when a gentleman who came over on the same steamer with Mr. Page remarked: "It may not Reid's drawing room in Paris that he will only stay there this winter. No. I can not say who told me, but it was the current gossip that he was not satisfied to be away from his paper over a year; that to be minister during the ex-position period quite satisfied his ambition for government honors, and that, having originally wished to go to England, he would give up France at the earliest moment when he could do so with dignity."

THE EVENING STAR IS & PAPER OF TO-DAY, not of YESTERDAY nor of LAST WEEK. It prints ALL THE NEWS, Local, Domestic and Foreign, LONG IN ADVANCE OF THE MORN-ING PAPERS.

This is conspicuously true of all classes of news, but especially so in regard to Local News and District Affairs.

THE STAR has a very much LARGER and BETTER force of LOCAL RE-PORTERS and SPECIAL WRITERS than any other paper in Washington ever thought of employing, and ITS MECHANICAL EQUIPMENT AND PRINTING FACILITIES ARE MORE THAN THREE TIMES AS POWER-FUL AND RAPID AS THOSE OF ANY OTHER WASHINGTON PAPER. It to therefore able to print each day a full report of every transaction of public interest occurring in the District up to the very hour of going to press.

By the free use of the OCEAN CABLES for REGULAR AND SPECIAL DIS-PATCHES, and with the difference of time in its favor, it is also able to give its readers every afternoon the news of the WHOLE EASTERN HEMISPHERE for the entire day, and up to 12 o'clock midnight, thus leaving literally nothing in the way of news from Europe, Asia, and Africa for the morning papers.

Equally does THE STAR lead all its contemporaries in the publication of the NEWS OF OUR OWN COUNTRY. Receiving the regular dispatches of

both News Associations; with alert and enterprising special telegraphic correspondents at all important points; and with wires leading directly from its own office to the general network of telegraph system touching every city, town and hamlet in the United States and Terri-HANDSOME WELL-BUILT THREE-STORY BEICK DWELLING, NO. 911 OSTREET NORTHWEST, CONTAINING TEN ROOMS, CELLAR AND MOD-ERN IMPROVENENTS. uence occurring du anywhere between the Atlantic and Pacific Oceans.

O NOTE THE RESULT:

THE STAR HAS MORE THAN THREE TIMES AS MANY REGULAR SUBSCRIBERS and MORE THAN FIVE TIMES AS MANY REGULAR READERS AS ANY OTHER DAILY PAPER IN WASHINGTON. It is delivered regularly by careful carriers at the HOMES OF THE PEOPLE, AFTER THE BUSTLE AND WORRY OF THE TAY ARE OVER, and it is thus read leisurely and thoroughly by EVERY MEMBER OF THE FAMILY.

They know that it prints all the news, and has only the interests of the people of the District in view, with no partisan measures to advocate, and no private schemes to forward. They know it, in short, to be THE PEOPLE'S PAPER, and nothing else. As an ADVERTISING MEDIUM it is, therefore, ABSO-LUTELY WITHOUT A RIVAL. It is in fact worth more as a means of reaching the public THAN ALL THE OTHER DAILY PAPERS IN THE CITY TOGETHER.

Furthermore, in proportion to the returns it gives its patrons, ITS ADVER-TISING RATES ARE THE CHEAPEST IN THE CITY.

In conclusion, the public should bear in mind this one significant fact: THE STAR does not rely upon empty boasts to impress the public. ITS CIRCULA-TION IS SWORN TO; its PRESS-ROOM IS OPEN TO THE PUBLIC: and its BOOKS MAY BE INSPECTED by any one having an interest in their examination. These are CRUCIAL TESTS, which few papers invite, and which those that boast most are least able to stand.

The esteem in which THE STAR is held by the reading and advertising public is conclusively shown by the figures given below.

In the first six months of each of the five years named the average daily circulation of the paper was:

" 1886......24,882 " " 1887......25,702 " " 1888......27,063 " " 1889......30,241

Equally significant is the showing in regard to the advertising patronage of the paper, which is the surest indication of its acknowledged value as a medium of publicity. The number of NEW AD-VERTISEMENTS printed in the columns of The Star during the first six months of the years named was as fole

ln 1885..... " 1886......22,520 ".1887......27,516 " 1888.....**27,866**

These figures, showing constant and large increase in both departments of the paper's business, need no comment. They tell the story of public confidence and demonstrate in the plainest manner possible that THE STAR IS THE RE-COGNIZED CHANNEL OF THIS COM-MUNITY FOR ALL BUSINESS COM-MUNICATIONS.
